Honestly? Any time is a good time to buy plants — but here's what our order data tells us:

Oct–Dec (festive + winter) → Peak season. Highest order volumes. Great for gifting (Diwali, Christmas, New Year).

Feb–Mar (spring planting) → Second busiest. Great for setting up outdoor gardens and balcony spaces.

Jun–Aug (monsoon) → Slightly quieter — but still a good time if you're looking to grow indoors.

Inventory is strongest heading into peak season (Oct–Dec), so you'll have the widest selection then.
